

# EXPERIENCE UNI AND BE YOU AT

## 08.07.2015

## WORKSHOP DESCRIPTIONS

### **Wigs? Harry Potter Robes? Defending Murderers?**

Find out the whys and how's to the above questions, and much more at our interactive law workshop. You'll have a chance to find out what it's actually like to study law and be a lawyer. We will take you through the transition from school into a university law course, the subjects you can study and the career options that await you once you finish. We will also explore some of the skills that lawyers need to be successful through an interactive negotiation.

### **Learn How to Become Mark Zuckerberg, Bill Gates or Steve Jobs in Business Leadership.**

Leadership style can influence team motivation and engagement with a task. The experiential exercise "The Towers" allows students to learn about the impact of leadership style by working in small teams on a collaborative task and become great leaders.

### **Who Hacked My Facebook?**

Learn all about the prevention of unauthorised access to computers and wireless networks in this hands-on network and wireless security lab workshop.

### **Engineering the Future**

Are up to the solar car challenge? Pit your alternative energy skills in the great solar car race, and learn all about using the earth's natural resources to help fuel the cars of the future.

### **Your Brain: A User's Guide**

In this workshop you'll learn about the brain areas undergoing the most development during your teenage years: the frontal lobes, and how their interconnections with other brain areas important for memory and attention can affect the way we learn. Take part in a memory experiment and analyse the results!

### **Oil and Penguins do not Mix**

Learn all about how the award-winning magnetic particle technology 'magic wand' is helping to treat wildlife in oil spills, and increasing their chance of survival.

### **Be a Tradie For a Day**

Get hands on and discover the tricks of the trade, make a timber pencil case, try welding on our simulator or try some pipework like a plumber.

### **Get the Downlow on Updos and Other Show Stopping Styles**

Learn how to create a range of hairstyles while talking to our TAFE experts for course and career advice.

### **Music Technology Workshop - Make a Track with Logic Pro X**

VU's music students use some of the world's leading music software programs and here is your chance to make your own masterpiece in one of our Mac labs using Logic Pro X. Don't worry if you don't play keyboards, all you need to know is how to use a mouse!

### **Experience the Business of Sport**

This workshop will help you develop a comprehensive understanding and practical knowledge of one of the fastest growing employment areas in the world. Come learn how we integrate theory with practical experience to prepare you for the vast array of career opportunities in the sport industry. Ranging from grassroots and community to professional sporting clubs and dozens of associated fields – this industry has something for everyone!

### **Get Ready for an Adventure**

Get ready to have some fun and discover exciting adventure based learning activities. This workshop will involve being active, working together and solving problems using your initiative. Staff will provide you with information about course options related to outdoor leadership, adventure sports and outdoor recreation/education. If you are interested in a career that is active, fun and engaging, make sure you register for this workshop.
